

EMPLOYEE PORTAL

For barns, wedding venues & boutique hospitality

Stop chasing timesheets. Start running your venue.

Clock in, export, done. Built by a bar manager after too many scraps of paper went missing and too many pay and rate disputes. No spreadsheets, no paper, no month-end chaos.

Get started. No credit card.

Built by a bar manager.

Made for busy venue teams that need payroll-ready exports without the admin grind.

Employee Portal — The Tythe Barn

Built for real shifts, real rates, and real month-end deadlines.

Still tracking shifts on paper?

Scattered sheets. Late submissions. Payroll headaches. The last thing you need when you're running events, managing staff, and keeping guests happy.

- Chasing signatures at month-end
- Manual rate calculations — custom day/night, enhanced, supervisor
- No audit trail when disputes arise

Origin story

Clock in, export, done. Built by a bar manager after too many scraps of paper went missing and too many pay and rate disputes. No spreadsheets, no paper, no month-end chaos.

Everything you need. Nothing you don't.

Built for small teams. Payroll-ready in one click.

Clock in & out

One tap. Staff clock in from their phone. No paper, no fuss.

Pay rates, automatic

Add custom pay rates, enhanced rates (like night premium), and venue-specific day/night rates. Set once, calculated forever.

Timesheets

Personal and manager views. Always up to date, always accurate.

Export

Excel & PDF. One click. Payroll-ready for your accountant.

Manager dashboard

See everyone. Add, edit, approve. Quick export all staff.

Audit log

Who changed what, when. Full traceability for peace of mind.

How it works

1. Add your team

Create accounts and set custom day/night + enhanced rates. One-time setup.

2. Staff clock in

From phone or tablet. Times logged automatically.

3. Export, done

One click. Excel or PDF. Send to payroll.

Built by a bar manager

"I built this because I was sick of scraps of paper going missing and endless disputes with staff over hours and rates. Now we clock in, set our custom day and night rates, and export. No more arguments — it's all there."
